

PONCHO / TARP USER MANUAL

REDUCE your thermal image as seen by others.

HIDE from ground, and air devices.

CONCEAL yourself from the enemy!

THERMALBLOCK technology works by imitating the infra red energy from the sky and objects around it.

THERMALBLOCK is lightweight, and water and tear resistant,

THERMALBLOCK can be worn in direct contact with your body. It does not require a standoff or distance from your body.

THERMALBLOCK must be worn as outermost layer, on top of all other clothing and equipment.

Any camouflage, clothing or equipment worn on top of Thermablock will warm up to your body temperature and be seen by others.

THERMALBLOCK
 Ponchos can be used
 in an Urban Hide.

WITHOUT THERMALBLOCK

WITH THERMALBLOCK

THERMALBLOCK tarps can be joined together to conceal large weapon systems and equipment.

Troops use **THERMABLOCK** to conceal running vehicle in the Arctic.
